# CARNOT, NOW FAURE.

Aftempted Assination of the French President While Reviewing Troops.

# FIRED AT BUT NOT HIT.

THE WOULD-BE ASSASSIN AR RESTED. CLAIMS THE CARTRIDGE WAS BLANK. REJOICING OVER FAURE'S ESCAPE. AT-TEMPTS TO ASSAS-SINATE HIM.

(Special Desputch to the Transcript.) Panis July 14.—An attempt was made sinate President Paure today. The president had gone to Longchamps to review the troops. No sconer had he en tered the field than a man in the crowd stepped forward and fired a revolver at him. The shot did not take effect.

The would be assassin was at once at rested. He declared he only fired a blank cartridge and had no intention of killing Faure. When it became known in the crowd at Longchamps that the President was not hurt by the shot the greatest enthusiasm was manifested and the utmost efforts of the guards were required to control the crowds about the place where the president and suite were standing.

During the eighteen months that have alapsed since Faure was chosen President of the French Republic there have been three more or less clearly defined plots concected for his assassination.

In the first of these the principal was Bordeau," a deserter from the French army, whose plan as alleged at the time was to kill the President during the fetes at Harve in April 1885. The authortitles being forewarned nathing came of FOR THE COLORED RACE this affair.

In June last year a commercial traveler named Hillsiraud was locked up by the police of Periguean upon information that he threatened to fire upon President Faure while the latter was visiting the town in order to draw attention to certain weal or famcied grievances.

On March 1 of this year three Spaniards and an Italian were arrested on board a railroad train at Velencie having no tickets. They said they were going to Lyons to see President Faure and as they | were present. The convention is to last were armed with daggers or razors the three days. newspapers came to the conculsion they formed a conspiracy against the life of the president. These men were subsequently liberated.

One of the cases tried at the June women in all parts of the country to unite | Miller of Adams against Roberts of erm of the superior court was that of Clarksburg, in which a verdict of \$1633 was rendered in favor of the plaintiff. During the trial M. E. Couch, counsel for Roberts, raised technical questions as to the plaintiff's right to recover on evidence, but the judge ruled against him three times and then allowed the plaintiff to amend in order to recover on the evidence. In accordance with the judge's instructions the jury rendered the verdict above mentioned. Mr. Couch then filed s motion that the verdict be set aside and a new trial granted. He argued the motion last Friday, and Monday a new trial was granted.

### THE PUBLIC SCHOOLS

Receive Expensive Visits From the Board of Hemith.

The investigations of the board of health have been extended to the public schools and the visits made will cost the city about \$1,500. The sanitary arrangements and conditions in Drury academy, Church street and Union street schools did not meet with the approval of the heard, and the school board was notified that it must make many changes for the better. The closet rooms at Drury will be almost entirely refitted and alterations in ventilation will be made in some of the chool rooms.

The repair committee, which has the work in hand, will call for bids at once and the necessary changes and additions will be promptly made.

# NEWS OF THE WORLD

How North Adams Obtains II Through the Associated

Press and ITS REPRESENTATIVE PAPER.

Special and Enterprising Efforts Made by the Great News Agency of the United States to Meet the Requiremets of this Modern City.

Within one minute from the time the announcement of Sawall's nomination was made to the Chicago convention the news was received in the TRANSCRIPT office, within five minutes it was ready for the press and before five o'clock the paper was on the streets giving a complete and connected story of the day's proceedings. There was no other paper in this part of the state that gave any later news Saturday than that saying bal-

oting was underway. Neither the Troy Times nor the Albany Evening Journal in their latest editions of Saturday gave news later than about the third ballot, while the TRANSCRIPT gave the results of the fifth ballot and announced Sewall's nomination. This was but a repetition of Friday's work when the TRANSCRIPT was the only paper in this part of the country that gave the

news of Bryan's nomination that evening. We were able to do this owing to our special arrangements with the Associated Press and the interest shown by their managers in making the telegraphic service to this paper and this city the most perfect possible. The news comes to the paper through the local Postal Telegraph office which is in charge of W. F. Orr, He enters heartly into the spirit of obtaining every advantage possible for the paper and the community in the way of securing the best wires and the quickest delivery. One of his operators, F. E. Murray, is an expert and is exceedingly rapid and correct. He takes the messages by sound, puts them direct upon paper with the typewriter, which he operates himself as he listens for the message coming over the wire.

The local office was connected direct with the convention, an operator being on the platform in the Coliseum. Re peated inquiry came from the operator of the Associated Press to know if we were receiving the service all right, showing an interest in our efforts to keep our readers promptly informed.

The unusual opportunities which our city now enjoys in obtaining news comes especially from the fact that when we arranged for this exclusive service for this locality we went direct to the headquarters of the Associated Press, explained what kind of an up-to-date city this is, showed them the kind of paper we were establishing here and interested them in it. They took a copy of the paper and examined it carefully and or our second interview we all understood what we wanted and planned a special service peculiarly adapted to this locality

as we all believed, It was explained to them that we were quite as much of a New York as a Massachusetts city and that instead of filling up our columns with a raft of insignificant news about places down east almost exclusively, as seemed to be the custom of most New England papers, we wanted the cream of the news of the world coniensed. They were greatly interested seen here and their merits are known. It in our idea of a service and have shown a is safe to presume that the others are of most gratifying desire to make it satisfac-

favored by the Associated Press in the special advantages it obtains through that wonderful organization for gathering and distributing news. Mr. Diehl and Mr. Mack and others at the New York head quarters have a thorough appreciation of the modern character of this city and of what it looks for in its representative paper and take special pains and pride in seeing that those requirements are fully

THE TRANSCRIPT finds satisfaction in the results of its own efforts in this direction, and we trust our readers find the results satisfactory to them. We are encouraged to believe they do from the fact that the sales of the paper are steadily and constantly increasing not only in this city but in the adjoining towns.

But whatever may be the amount of

appreciation felt by our readers in regard to what the paper is trying to do for their welfare, the special interest taken in this city and in its leading paper by the As sociated Press should be understood and appreciated. It is a compliment to our ing city and its enterprising demands If at any time the telegraphic columns should be short of news it may be attributed to the fact that the world has not made any news that day, or else that the elements are to blame and the wires are broken up. We believe it will never be from neglect at either end of the line.

## Getting the Line Ready.

J. C. Haskins is pushing the construction of the wire line from the Gas comnauv's electric plant to the Hoosac tunnel and the company hopes to be able to supply the current for lighting the tunnel by August 1. Heavy poles are used and the line will be built in the best manner in all respects. The work of setting the poles will be finished before long and then the stringing of the wire will begin. This will not require a great deal of time, and as soon as all is in readiness the lighting company instead of by the Fitchburg

#### A CLEVELAND DEMOCRAT Writes to The Republican Transcript His

Views of The Chicago Ticket. EDITOR OF THE TRANSCRIPT:-In a recent interview Justice Frederick Smyth of the Supreme Court of New York, a Sachem of Tammany Hall, said: "I can-not vote for the candidate nominated by the Democratic party at Chicago under the circumstances. The platform he

stands on and represents is the platform

of Scelalism, Anarchism, Altgeldism and

Herr Mostism, and should be condemned by every true American." This view of the Chicago platform is singularly corroborated by the following despatch from Berlin to the New York Times of July 13: "The triumph of the Populists in the Chicago convention was hailed by the Socialists here as a victory for the red flag. A resolution will be proposed in the coming International Socialist Congress in London congratulating the co-workers of the European Socialists in the United States upon the coming (sic victory of the cause of dynamite."

The Berlin dispatch as published in the Fimes is headed "Triumph for the Red Flug. German Socialists' View of the Re-

sults at Chicago," This endorsement of those "results" is the best commentary the writer has yet seen. It places, and rightly, every supporter of Bryan on the side of Socialism. Anarchism, etc. Is any Democrat of the Jeffersonian stamp willing to be so

#### ON TO MILWAUKEE. The Baptist Delegates Had a Good Supper in This City.

The fourth New England Baptist Young People's union train for Milwaukee. Wis. samed through this city Monday evening A stop was made here for supper, which was served by the local union of the Baptist church. There were about ninety delegates. The tables were prettily arranged about the Eagle street rooms in the church and a tempting supper awaited the delegates upon their arrival. During the supper hour the Boys' orchestra played a number of selections in a very fine manner and Miss Edith Green contributed a well rendered violin solo to the

program.

After supper had been served remarks were made by the following delegates: Rev. J. N. Gow of Somerville, Rev. W. T. Green of Natick, Rev. George E. Horr, Jr., of Boston, W. W. Main of Marble head, R. W. Phillips of Providence, R. I., Rev. Lyman R. Sweet of Cambridge, Rev. A. C. Tenny of Newport, N. H:, and E. L. D. Turner of Providence, R. I. The emarks were all brief, but of interest to each one present, showing the good being eccomplished by the union all over the country. After the speaking, the hymns, Blest be the tie that binds," and "God be with you till me meet again," were sung and the benediction was pronounced The exercises were over at 7 o'clock and the half hour until time to leave at 7.30, was spent sociably around the church, and then the delegates departed for their destination in Milwaukee, where they will arrive on Wednesday at 6.30 p.m.

## PEOPLE'S CHURCH OF ALBANY.

To Hold a Field Day on the Fair Grounds. The People's church of Albany will

have an excursion to this city Thursday, July 16, and hold a field day on the fair grounds. The excusionists will come by special train, arriving here about the middle of the forenoon, and it is expected they will parade from the depot to the fair grounds headed by a band. Dinner will be served in the dining hall and there will be a program of field sports with prizes for the winners. Twenty-five gallons of ice cream have been ordered and the local A. P. A. people will contribute to the dinner. The fare for the round trip from Albany, including admission to the fair grounds will be \$1, and it is said that about 150 tickets have been sold-The price of admission to the grounds for those who do not come on the excursion will be 15 cents. The prizes are given by Albany people and the proceeds will be used by the People's church in building a church edifice at Albany.

# ABOUT PUBLIC WORKS

Some Things Being Done and Other Matters Under Consideration.

ATTENTION TO THE STREETS.

West Main Street Will Not be Widened this Year. What the Highway Commissioners Say. Electric Road May be Moved from the Bridge.

The board of public works will give its attention to the streets in the center of than you've got fingers. the city for a few weeks to come. The curbing is to be put in position along a section on Main street and from opposite Eagle street to Spring street on Church into the walks on Main street, where new walks and curbing will be put in later. Suits for The Church street walk will be built beyond the line of trees suffliently far to permit of a grass strip being laid between the trees and the curbing.

The West Main street alterations which have been suggested are not being seriously considered by the board. While it is believed the widening of the street from the Main street bridge over the bill improvement, the expense and inconvenstep will be taken in that direction this

The state highway commissioners, who examined the highway with a possible view of macadamizing it, were very pronounced in their decision that the road between the above mentioned points would have to be considerably widened, The change would necessitate an extension of the little tunnel in order that the \$12, 12.50, 13, and 13.50 bridge might be moved to the north. The high embankments on the south side of worth of satisfaction you are the street would have to be cut away. Another year the project may be carried entitled to your money back.

The surface sewer lines are being put in with as much haste as the work will allow. With the completion of the Center street line the work of laying the surface pipes in the "swamp" district will he commenced. The proposed domestic sewer from Eagle street along the river to Marshall street will be laid after the "swamp" sewer is completed.

Another matter which is being considered by the board concerns the possible discontinuance of the electric car service over the Main street bridge. New piles will be put under the bridge this summer and when that work is being done it is very probable that the Hoosac Valley company will be asked to take its track off from the bridge and erect a small trestle bridge of its own on one side. There was some hesitancy about running the cars over the bridge when the service was put in, not only on account of the wearing of the bridge, but also the inconvenience to drivers and the possibility of acoldents. The board will decide upon the matter in the course of a week or so and its decision will be learned with interest.

### HURT BY A RUNAWAY.

An Old Man's Dangerous Experience the Hancock Road.

Mr. Fisk of New York, who is stopping at the Idlewild, South Williamstown, had his team hitched up Monday afternoon and was about to take a drive. The horses were left for a moment and started away on the Hancock about a mile from the hotel, an old man who was walking along the road was struck and knocked down, but it is thought he was not dangerously injured, although the first report that reached this city was that he would probably die. It has not been learned here who the injured man is. It is said he had recently left the Fitchburg hospital and was on his way to Lebanon, N. Y. He was badly hurt about the head and was unconscious for several hours. The wagon was somewhat damaged, but the horses were not

## Emily Phillips.

Emily Phillips, 65, widow of Jerome Phillips, died at at her home, 1 Phillips street, this afternoon from a complication

She was born in Stillwater, N. Y and came to this city when a girl She had since made her home here and was highly respected by a large number of friends and acquaintances. She was a member of the Universalist courch and a constant attendant.

Her illness was of three years' duration and death was not unexpected She is survived by two sisters, Mrs. Sarah Orcott of Otsago, Mich , Mrs. Sophia Chapman of Dowagiac, Mich. and a son, William H. Phillips of this

The funeral will be held from the home Wednesday afternoon at 4 o'clock, Rev. A B. Church officiating.

### He May Recover.

There appears to be a possible chance of the recovery of Walter H. Clark, the Pittefield bleyclist who was so badly injur ed a week ago in a collission and who has since been at the House of Mercy suffering from a fractured skull. He is conscious at ong intervals, and the fact that he has ived so many days since he was hurt is thought to indicate his ultimate recovery, aithough his chance at the start was o the sort regarded as one in a thousand.

CUT THIS OUT AND PRESERVE IT FOR REFERENCE.

A short time since the TRANSCRIPT published a simple definition of the silver question prepared with the intention of In the still of the summer's evening, giving in a plain, condensed form information that would be a convenience to many in answering the oft repeated in-"What does the money question mean?" The article was compiled from explanations of the question given in the Wilwaukee Wisconsin and the Philadel Phia Ledger, both reliable authorities, the latter being one of the most able and solid ilnancial and commercial dailies in the United States.

We have been requested to republish it and we do so, as it has seemed to be found of interest to many who have found it also quite a convenient thing to carry with them for reference. In republishing the article we add to it the gold plank of the Republican party and the silver plank of the Democratic party. By cutting out this in its entirety and putting it in your pocket book you may not only find it convenient for reference but it may stimulate you to try to exert an influence that will help you in keeping your pocket book in a condition of such value as only a sound currency can give it.

The money question at the present time is whether or not the United States shall undertake the free coinage of silver at the old ratio under which sixteen ounces o silver were accounted equal to one ounce

One onnce of gold. American coin standard of fineness, that is, 900 parts of pure gold to 100 of alloy, will coin in gold dollars \$18.60. Sixteen ounces of silver, American coin standard of fineness, that is, 900 parts of pure silver to 100 of alloy, at the rate of 4121 grains to the dollar (the weight of the present standard silver dollar; will coin \$18.60 in silver dollars. These There would, therefore he a profit of \$8.88. per cent, if a holder of silver could take it to the mint and coin it without charge into silver dollars.

The advocates of free coinage favor a law that will allow any holder of silver bullion, or, in fact, silver of any kind (as suppose that encyclopedias are for profesthe latter can readily be melted into bars; | signal men only. They should be in the to have the right to take the same to any mint of the United States and convert it into silver coin free of charge.

It is easy to see that if this were done it | might own the Britanuica. would not be long, with free coinage, before the country would be flooded with silver coins, and the very large profit to the owners of silver mines would quickly start to work mines at present idle, to the immense advantage of the mine owner.

It is also easy to see that everybody who owed money would pay in silver rather than in gold, because silver money would be cheaper than gold money, and gold money would soon be unattainable. The gold could be used to advantage in the foreign trade because a gold dollar would purchase abroad nearly twice as much as a silver dollar, as the metal in it and specially attractive to the busy man. is intrinsically worth twice as much as I find the TRANSCRIPT edition to be a the metal in a silver dollar.

The wages of labor would in effect be cut down almost one half, because the \$5.00 per volume today, and equal to it in contracts of working people with their papers, print and binding, besides having employers are expressed in the terms of a supplement in the back of each volume, money, and by reducing the money system of the country from the existing gold standard to the silver standard, the value of the dollar would practically be cut in

The following is the gold plank of the

Republican party: "The Republican party is unreservedly for sound money. It caused the enactment of a law providing for the resumption of specie payment in 1879. Since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or imbe maintained at a parity with gold, and animal. we favor all measures designed to maintain

Democratic party:

"We demand the free and unlimited TRAVELLER'S coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal-tender money by private contract. We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by law to the Government of redeeming such obligations in either silver coin or gold

The North Adams Transcript takes pride in the fact that Holyoke capied after the Tunnel city for its new charter. North Adams has good reason to be proud of its new document. It is the finest charter in Massachusetts.—Holyoke Democrat.

Holyoke is an enterprising city and knows a good thing when it sees it. We could ask nothing better for it than that its new charter may prove as satisfactory in its workings as does the charter of North Adams to the people of this city.

McKinley is receiving letters from prominent Democrats as fast as he can read them stating that he will receive their votes. There is something hearty and emphatic in the action of men cager to put themselves in writing for a good cause and it shows that there is something more than hasty impulsively spoken words back of it.

When Bryan said that no power on earth or in heaven could induce him to vote for a gold-standard Democrat he pretty effectually let down the bars and invited every self respecting Democrat to go where he pleases, and to work and vote in such political company as seems to him best.

The New York Sun of Monday published comments from twenty-six leading Democratic papers from all parts of the country which demand the repudiation of the Chicago revolutionists,-and the procession is only starting.

WAITING.

When the shadows are falling gray, And the crickets are sadly chanting, A dirge o'er the slow, dying day, When flowers are drowsily nodding,

And the clover is heavy with dew, Under the roses I'm waiting, Waiting for you.

When the sun in the west is sinking, And the breezes are whisp'ring low, And the silv'ry sails on the water, In the twilight are drifting slow: I stand in the silence and wonder,

If to me you will ever be true, Under the roses I'm waiting, Waiting for you,

Another fair day is declining, I stand in the sunset alone, The years have been long since I waited In vain, for thy coming, my own. The tears in my eyes are fast rising,

I have suffered and toiled, all for thee,

Under God's roses you're waiting, Waiting for me.

THE WEALTH OF NATIONS. Proportion Coming to Each Inhabitant if

au Equal Division Were Made. There is a very old story, which sober minded statisticians reject as erroneous and apocryphal, that tells how a needy man in the city of Paris obtained an audi-

ence with the head of the banking house

To this fluancial magnate the needy man recited his distress and argued that there should be an equal division of all property, doing away with the existing disparities, which he alleged were unjust, M. Rothschild, so the story goes, took from his desk a piece of paper and flgured upon it the total wealth of France. Then he di-vided the total by 36,000,000, the popula-tion of France at that time, the result being the per capita share of the wealth to which his visitor would have been entitled.

Then M. Rothschild redivided that total danger. The mystery of the pistol shot is by the population of the country, and, handing his visitor a one franc piece (20

cents), said:
"My friend, here is your share of all that I would owe you on the redivision of the property of the country. Collect the bal-

ance from others. Whatever may be the basis of fact upon which this story is founded, there is no disputing its periodic recurrence in the form of an estimate of how much each citizen of a country would have if the wealth of such s country was equally divided among all its inhabitants. Recently a paragraph, probably of English origin, has started on its travels through the newspapers and magazines which shows that if the wealth of the United States was so divided every person in it—man, woman and child, mil-lionnire and pauper, banker, farmer, artisan, schoolboy and schoolgirl-would have \$200. This is not a large sum when the growing resources of the United States are considered, but there are probably plenty of persons in every community who would be willing to accept \$200 in cash in full satisfaction of a prospective division at some time far remote of the total wealth of the country.

In point of fact it is, of course, unreasonable to hase any plan of division on the total number of inhabitants, for a very large number of these are infants below the age of 5 years, and a still larger number are male minors between 5 and 21 and female minors between 5 and 18. But, ever on the basis of the total inhabitants of the country, a division of its wealth would yield much more than \$200—in fact, more than \$1,000. There were by the last federal census about 17,000,000 male adults in the United States, and a division of the wealth of the country among them would give \$5,000 apiece as the share of each. The word "wealth" has a somewhat elastic meaning when applied as a designation of property, but among the statisticians it covers, first and chief of all, land; next houses; then the contents of houses, and in the order of importance cattle, money metal, railways, merchandise, ships and sundries. On the basis of all these the average wealth to each inhabitant in the following countries is in excess of \$1,000 per person—the United States, Eugland, France, Denmark, Holland and Australia. Between the \$750 and the \$1,000 limit are Switzerland, Belgium, Canada. Below that are Germany, Spain, Haly and Sweden. In Russia the average is \$300, and in no country from which authentic statistics are attainable is the amount of

wealth less.
On the basis of the actual money in circulation among the inhabitants, irrespective of such forms of invested wealth as houses, land, ships and merchandise, France is the wealthiest country, with an average of \$60 to each inhabitant, the largest proportion of which is in gold coin. The average in the United States is \$35, in Germany \$25, in Holland \$40, in Great Britain \$22.50, in Spain \$22.25, in Italy \$15, in Belgium \$30, in Canada \$10, in Russia, \$10, in India \$5, in Japan \$7.50 and in China \$2. A division of the wealth of any country on an exact and indiscriminating basis among its inhabitants is, of course, chimerical, but a consideration of the results of such division gives a very clear indication of the relation which the wealth of one country bears to the wealth of another. The growth of material wealth is more rapid in the United States than in any other country, but the growth of population keeps on too.—New York Sun.

Officer Scully, ever ready to investigate as quiet as a Sunday in the country.

The stillness only served to make the officers more suspicious than ever that a crime had been committed, and when after a few moments search Officer Scully picked up a man's hat from the railroad track there remained but little room for doubt. Procuring a lantern, Officer Scully piloted the searching party along the river banks, in and out among the freight cars, behind buildings, through the tunner and in every nook and turn where there was a possibility of a man hiding or of finding a dead body. The search resulted in no more than finding the hat, and the officers returned to their respective beats dissatisfied and full of suspicions.

The mystery of the hat was solved when davlight dawned. A freight brakeman called at the police station and claimed the property as his own. It had been knocked off just before the train entered the tunnel by the arrangement which is found dangling in front of bridges and tunnels on all railroad lines for the pur

At the beginning of the century it used to increase by more than 20 per cent in the ten years between successive censuses. In 1881-91 that rate had fallen to 10.4 per cent, the lowest on record, and now it is still less. This movement is not part of a general decline. It is peculiar to London and seems to indieate that the huge overgrowth of the me tropolis has begun to cure itself. No town can go on growing indefinitely, and ever Loudon, monstrous as it is, has not ful filled the expectations of earlier statisti cians. Two hundred years ago it appeared Petty, one of the earliest pioneers in dem ographical research, reckoned that by 1840 the population would reach 10,000,-000, supposing it to continue at the same rate. He thought, however, that a natural limit would be reached before then and placed it in the year 1800, by which time he calculated London would contain some-thing over 5,000,000 inhabitants and the rest of England only 4,500,000.

Newfoundland officialism has for all time had a very racy and humorous ele-ment about it, as might from its circum-stances be expected. One of its earlier chief justices was a delightful person, al-most worthy to have been a fishing admiral in the seventeenth century. This gentle man, a substantial merchant, by name Tremlett, and renowned for his rough, un Tremett, and renowned for his rough, the swerving honesty, was in 1802 made a subject of formal complaint to the governor, Admiral Duckworth. The latter was well aware that it was the chief justice's aggressive honesty that was the trouble. Nevertheless he had to bring the complaints officially to his notice. officially to his notice,

Savoy Fond-Florence Leary Taken to Northampton-Re ception to Rev. S. P. Orthe by the Congregationalists-- Death of Eva Wood-Silver League to be Formed.

#### Rev. Mr. Orthe's Reception,

About 300 persons were at the Congregational parish house Monday evening when a reception was given to the members of the church that they might meet Rev. S. P. Orthe, the new assistant pas tor. The whole interior was decorated with flowers, wild and cultivated, and at the door of the auditorium, where Palmer's orchestra of ten pieces was stationed several trees artistically placed produced an excellent effect. Pastor and Mrs. A. B. Penniman introduced Mr. Orthe and when all had met him a very pleasant cocial was had. In the line of refreshments lemonade and cake were served. The Twilight organ recital which Dr. B. C. Blodgett was to have given before the reception, was dispensed with as the organ is not in condition to render concert music properly. It was expected that a repairer would place it in shape Monday but he did not do so and the regital was necessarily postponed until Dr. Blodgett returns from his vacation.

#### A Neighborly Fight.

For sometime Mrs. Jennie Brown of Savoy and her neighbors, Anthony Sears' family, have been unable to get along without constant fighting. If one of the customary scraps did not come at the regular interval, both aides felt that there was something lacking. For some little time past their quarrels have become more bitter than formerly and now like other feuds it has gotten into the courts and as the start has been made, suits. counter-suits and all forms of legal tantalization may be expected.

The first move in this direction was made Monday when Mrs. Brown was brought into court on a warrant sworn out by her neighbor, charging her with larceny. He claims she has been stealing eggs and other property from him. Mrs. Brown pleaded not guilty and the case was continued until Saturday morning.

#### Florence Leary Insaue.

Florence Leary, a well-known young man who had always until the past few months been a studious and valued citizen of the town, has been acting queerly a long time and has caused his family considerable trouble and annoyance. Last week he become more than usually morose and troublesome and Drs. Riley and Boom after an examination, declared him insane. He was taken to the asylum at Northampton today by Sheriff William O'Brien. It is thought that Leary's studious nature caused him to overtax his brain power, producing first nervousness and then insanity.

### Miss Eva Wood's Funeral.

The funeral of Zeb Wood's fourteenyear-old daughter, Eva L., who died of heart disease Sunday night, was held from her late home on East road at 2 o'clock this afternoon. Rev. H. M. Boyce, pastor of Trinity Methodist church, conducted the services. Interment was in Bellevue cometery. The child attended school at the Liberty street building until recently and was very popular with her teacher. and playmates, all of whom are shocked for a year. to hear of her death. She had suffered from heart disease for two or three years.

## To Form a Silver League.

There is a movement on foot among citzena who believe in the free poinage of ailver at the ratio of sixteen to one to form an organization irrespective of party. It is surprising how many voters there are in Adams, both Democratic and Republican, who favor free silver. A canvas is now being made and in a few days a meeting will be held and the society perfected. They will secure prominent silver men to speak here during the campaign.

Quite a number of narrow escapes from serious injury have occurred lately due to the carelessness of people alighting from the electric cars while in motion. This is an exceedingly foolbardy practice even to those who are adept at it for the cars travel much faster than they seem to. The first serious accident resulting from this practice—there have already been several—will undoubtedly put a stop to it.

RECEPTION HALLS. The Furniture Required and Its Proper Arrangement-One Way of Changing the Aspect of a Narrow Hall-Treatment of

Reception Halls-Color Schemes The long narrow hallway is most difficult to treat with any degree of success. It is a mistake in selecting a rack or glass for such a place to choose a very small one simply because the place is contracted and narrow. One should in

Immediater under the rack a narrow bench may be placed. As an alternative a small odd chair might be used, one with wood seas and quaintly shaped

back preferred. Do not forget to place a few pictures on the walls. Photographs of noted places are in order here—the Coliseum at Rome, the Appian way, a bit of armor or a cluster of crossed swords. Some sort of receptacle for cames and umbrellas should be provided. Those of drain pipe shape and of Japanese make take up small space and are as good as

An effective mode of changing the aspect of a narrow hallway is depicted by Decorator and Furnisher, from which these suggestions are a reprint. This alteration is effected by placing a settle with the back to the stairs. This need not be a permanent feature—it can be fastened in place so as to be easily removed when necessary. Should one prefer to shut off from public gaze the view of stairway, it can be done without sacrificing the light by filling the space directly over the bench back with Jananese lattice or interlaced fretwork Another artistic idea is to hang a light beaded rice or bamboo curtain in this

As a rule the houses of modern build are arranged on a somewhat different plan, being now provided with what are sometimes called reception halls, which are generally nearly square. In these it is not so difficult to furnish, and if they be of generous size they are generally arranged as a sort of combined sitting and reception room. If the hall be small, one may have a hall stand or the wall rack and settle beneath, one with a box seat preferred. If there is a spare corner a "cozy" may be fitted up, or, if not, and a window is available, a broad, low seat will be an attractive feature. A small, low table, a side table with a drawer in it and a number of odd chairs must not be omitted. One or more growing plants add much to the picturesque appearance of a hall, and as a background for these a pretty threefold screen may be utilized with

good effect. When the hall is situated so as to receive a plentiful supply of sunlight at all times of the day, a cool scale of coloring should be selected. With a north room be generous with the warm, rich tints, the dull reds, clives and golden russets and browns. When light is at a premium, gladden the sight with its nearest equivalent, yellow, in its variety. This would be a most distracting color in the glaring light of the noon day sun, but when used upon the walls

IN A NARGOW HALLWAY. of a dark and dismal hall it is altother different. Choice should be made of other colors that will prove harmonious, always the warm, rich colors, nev er the cold. With such a setting any shade of finish in oak or mahogany woodwork will be fitting.

Care of the Jelly Bag.

Never rinse a jelly bag, strainer cloth or dumpling nets with soapy water. Do not use soap upon them at all unless they are afterward boiled and thoroughly riused in clean water, or the next things that are cooked in them or passed through them will surely taste of the flavoring of alkali.

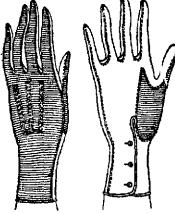

## Undaunted by the Buffalo Bug.

"Naphtha is emphatically the best and cleanest method of exterminating the buffalo moth and every other living insect," says a correspondent of Good Housekeeping. 'It is alike destructive to plant life, birds and small animals both in its gases and direct application. For carpets and furniture naphtha can be applied by a small sprinkling pot ing variety. The danger from fire is very great, and it should be used in the morning, when fires and lamps are out and doors and windows wide open. All plants and pet birds must be removed or they will certainly be more or less

fluid. "Sprinkle the naphtha in the places infested by the moth or other insects, and you may be certain that every living insect touched by the naphtha will be dead. The eggs, however, will not be dead and will come to life with such regularity that will discourage the anxious housekeeper. Nothing but heat. either dry or moist, will destroy the eggs. For a carpet the best thing to do is to wet a towel or piece of sheeting. Spread over infested part and pass a hot iron over it."

Mr. Charles H. Ramsdell of 8 Briggs wenue, and who can be found any working day at the Beaver mill, says:-"Doan's Kidney Pills did me a great deal of good. I had a very bad back. I could not bend forward to pick anything from the ground and if I inclined forward the slightest at work it required several minutes to straighten on account of the severe pain. I never thought it was my kidneys until my attention was drawn to the urine. It became thick with a milky deposit and there often was an undue inclination to urinate. I obtained the most gratifying results from Doan's Kidney Pills which ! procured at Burlingame and Darby's drug store. They removed the lameness from my back. I can rise as quickly as when I was a boy. The urine is quite clear and the tired feeling of lassitude has disappearcd. "

New York Democrats Arranging for a Conference.

TO DECIDE ON A PLAN OF ACTION Leaders Not in Favor of a Third Ticket May Decide To Make the Election of Gold Standard Congressmen

the Principal Fight.

New York, July 14 .- The action, if any, of the democratic gold-standard leaders regarding the Chicago platform and ticket is awaited with much interest. It is generally understood that a meeting is to be held either to-morrow or Thursday, and one report says that the conference is to be held at Long Branch, N. J. William C. Whitney and Senator Hill are not in the city at present, but it is understood they will both he here by this evening. Carlos French, the Connecticut member of the democratic national committee was at the Murray Hill hotel yesterday for a short time. He said he did not know just when the conference would be held, but he thought it would not take place before Thursday. Mr. French denied emphatically the report that he | Central road at 5:55 last evening, after had declared in favor of nominating a a pleasant run of three hours and a third national ticket. He said he had not committed himself one way or the slong the route Mr. Bryan was given other, and would not until the goldstandard men had conferred and decided on some course.

Opposed to a Third Ticket.

A prominent Tammany leader said that a conference would be held and platform of Pullman sleeper, and he that it would be attended by democratic leaders from New York and other states. Another democrat said the understanding was that the New York leaders would first confer and then invite the gold men of other states to a general conference. From the talk of Tammany hall leaders and the followers of Senator Hill up the state, it appears that the democrats are greatly opposed to the nomination of a third ticket. Some of the Tammany men talked of making a campaign for would vote as they pleased, but none of them seemed to think that it would be wise to name a gold standard ticket. Hill and Whitney are said to be opposed to a third ticket. Leaders Gathering.

The result of the conference, it is generally belived, will be a decision to spirited campaign for the national ticket and make a hard fight to elect congressmen opposed to free silver and the state ticket in New before Thursday. Senator Gorman declined to say anything about the proposed conference and Senator Brice, when asked if he would repudiate the Chicago ticket, said: "I am not ready to be quoted on that subject, and shall not be until I have had my own confrom my friends in Ohio and learn mend " James W. Hinckley, chairman of the democratic state committee, will issue a call for a meeting of the committee next week for the purpose of calling the state convention. It is said that the convention will be held in convention.

#### REBELS BLOW UP A TRAIN. Many Persons Believed To Have Beet Killed or Injured in Cuba

Havana, July 14.-An explosion oc

curred yesterday on the railway be-tween Cidra and Sabanilla, in the province of Matanzas. A passonger train that was passing at the time wa badly damaged, and it is believed that many persons were killed. A train, with physicians on board, has been dispatched to attend to the wounded and take them to the hospitals. De tails of the affair are hard to obtain as the government is seeking to minimize its results. A letter from Santa Clara says that Gomez, the rebel commander-in-chief, was encamped on July 9 at Manajanabo, twelve miles from the city of Santa Clara. His vanguard of 700 men, under Canizares and Cayito Alvarez, burned the houses on the Santa Rosa estate near Ranchuelo. Another rebel band has destroyed the San Antonio estate, close to Santa Clara. Both estates are the property of Vicente Abren.

OVATION TO BRYAN. Received by Big Gatherings at the Step-

ping Points Enroute Home, Champalon, Ill., July 14.-William J. Bryan arrived here on the Illinois half from Chicago. At several places hearty receptions. His first experience was at Kankakee, where about a thousand men, women and children were gathered. A cheer went up from the crowd as he appeared on the was obliged to get down into the crowd and grasp the many hands extended. Kankakee was reached at and a director of the Bank of England, 4:02, and, although the train remained there for three minutes only, Mr. Bryan made a good record as a hand shaker. Stops were made at several other places and the democratic nominee was given grand ovations He made several short speeches at some of the stopping places.

# WATCHING AMERICA

British Bi-Metallists Believe We Are for the Double Standard

UNDER INTERNATIONAL AGREEMENT

Many to Anxieus for the Remonstization of Bilver That They Were Willing To Act Independently of

Fereign Agreement, London, July 14.—The annual report of the bi-metallic league read at the annual meeting yesterday afternoon was quite optimistic in tone, declaring that international bi-metallism had made noteworthy progress in all the countries where the question had been discussed. After referring to the resolutions in favor of bi-metallism adopted by the popular chambers of Prussia, France and Belgium, the report went on to say that in the United States all the political parties and all classes of business men would welcome the establishment of international bi-metallism. A large number of the people of that country were, however, so thoroughly convinced of the necessity for the remonstization of silver that they were not disposed to wait for an international agreement to that end. The report further said that no pasty of importance in America favored gold monometalism. In conclusion the report declared: "The responsibility for the present and growing dangers to the industrial life of the nation rests upon those who oppose that monetary The chances are that he will be arsystem under which our prosperity adrested and taken before Judge Stone vanced by leaps and bounds." Lord Aldenham, the president of the league, was not present at the meeting, but a letter from him was read in which he congratulated the league upon the progress bi-metallism had made

in the United States. He said it was a striking fact that the question of bi-metallism, which, some quarters of England, was treated with contempt, should apparently be the main political question before the people of the United States. Alluding to the general attitued of the London press, Lord Aldemham said the newspapers had joined the chorus clamoring for "honest money," be-lieving that "honest money" in the United States was applied to gold monometallism, whereas, as a matter of fact, it was applied to international bi-metallism. The letter concluded with the declaration that whatever might be the result of the approaching presidential election in the United States the bi-metallists could be sure that their cause was advancing. The first lord of the treasury and government leader in the house of commons was expected to address the league, but he was prevented by illness from being present.

PREDICTS TROUBLE FOR JONES. Harrity Says He Is Glad He Is Out of the

National Chairmanship. Philadelphia, July 14.—Ex-Chairman Harrity of the democratic national committee returned home from Chicago last evening. He did not cars to talk politics and said he was not at present informed of the intentions of the gold democrats. "One thing I may say," remarked Mr. Harrity, "is that I am glad I am out of the national chairmanship. I fancy Mr. Jones will have his hands full before he gets through this campaign."

**CLEVELAND BASEBALL TROUBLE** Another Injunction and Fun Is Expected

Before the Tebesu Case Is Settled, 5

Cleveland, July 14.—Everything was

in readiness for some fun vesterday

afternoon at the Cleveland-New York game. In the morning Umpire Hurst received a telegram from president Nick Young instructing him that Pat Tebeau was incligible to play yesterday, and telling him the game was liable to protest. Hurst did not know whether to umpire the game or not, so Pat Tebeau hustled down town, went into cours and an infunction was issued against Hurst, restraining his interfering with the order of the court which had already enjoined the league from collecting the fine assessed against Tebeau. Frank Robison sat on the players' bench to see the fun when Dick Stegkemper served the injunction on the umpire. Hurst said nothing but went on with the game. Irwin decided not to protest before the game, but wanted to see whether the giants lost it or not. The scene around the Cleveland players' bench was more like that seen in a justice court. In addition to the injunction on Hurst restraining him from interfering with Tebeau, restraining orders were also served on Arthur Iwin and Kid Gleason enjoining them from collecting the fine levied on Tebeau. It was a field day for the lawyers. Big Mike Sullivan went in to pitch for the giants, while Cuppy pitched for Cleveland. Tebeau was on first. The threatening weather kept the attendance down. Irwin decided to take a chance on being in contempt of court, and has protested the game. for a hearing. There will be fun indeed before the Tebeau case is settled. SEARCH FOR THE NORTH POLE.

The Andree Aerial Experiment and the

Martin-Conway Expedition. London, July 14.—Advices have been received from Tromsoe, Norway, that Arnold Pike's steamer Victoria has arrived there after having visited the Swedish aeronaut, Andree, at Dane's island. The erection of a balloon house had been begun, and Andres expected to be ready to start on his acrial voyage towards the north pole early in July. Before starting, however, it was oughly by sending it up attached by ropes, and by telephone to the steamer Vigo, which took him and his companions and their outfit to Spitzbergen. On the way back from Spitzbergen, the steamer Victoria called at Advent bay on June 29, where it was learned that the members of the Martin-Conway party of the Swedish Geer-Knooring expedition were well. At that time Advent bay was full of ice.

Teach your boy the value of a dime. He will then know what to do with his dollars later. If this lesson in economy were the only end in view it would still be worth your attention, but how infinitely more valuable is it when you know that this end is but a means to a greater and, the bringing into your home of the greatest literary work the world has ever known; the placing of a liberal education within your reach and within the reach of every member of your family, thus making your home the peer of any public library in the world, so far as the facts of history, the discoveries of science and the practical knowledge of the world are concerned. Isn't it worth trying? Investigate the matter today. We don't want you to act till you think-we know

Remember that this edition is copied from the expensive Edinburg edition at \$8 per volume, with all itwealth of information and beauty and profuseness of illustration, page for page, besides having nearly 2000 pages of extra matter added and new and late maps making it more valuable than the original.
